COMMENT BY THE GENERAL PUBLIC:

- **Dane Mattoon, Motorola Solutions, Senior Account Executive** – This is the first meeting I was able to attend. I have been working with all entities over the last year and a half, quite diligently. I wanted to let everyone know that we are being affected like every other tech company with this chip shortage, supply chain issues, raw material increases, and fuel costs. We just increased the base price to our radio by 10% a few weeks ago. I do not know if there will be another increase. If anyone has any questions, please feel free to contact me and I will do my best to answer to get you the best answer.
